# CALL for Special Sessions

The **IEEE MetroSustainability 2026** Organizing Committee invites proposals for Special Sessions on new or emerging topics in metrology for sustainability that have the potential to have a major impact on the field in the near future.

Special sessions have the main aim of creating a mini-workshop on a specific topic, where researchers working on the same argument can make knowledge, familiarize, exchange ideas, create cooperation. They gather together researchers and students interested in a specific topic and can strongly contribute to the success of the conference itself. Moreover, they can be the first step for trainees and students to the organization of a scientific event.

Special Sessions are expected to be related to the conference theme or especially hot topics within the conference scope, provide a focused discussion of new and innovative topics. All submitted papers undergo the same review process.

## SPECIAL SESSION PROPOSALS

- Special Session proposals must contain the following information:
- Title of the proposed Special Session;
  - Names, affiliations, and contact information of the session organizers;
  - Brief biographies of the session organizers;
  - Brief description of the proposed session with a list of the related topics.

Special Session Proposals must be submitted through the submission website at <https://www.metro sustainability.org/special-sessions>

Visit the conference website as well as social pages for each specific call and additional news.
